Orange Crush

The fall forecast is in, and orange has risen to the top of the list as the hottest hue of the season. Style guru Jason Oliver Nixon picks a few of his favorite citrus-tinged treats to add some spiff and polish to your home.

LOVE, ITALIAN STYLE

Leave it to our divine pal **Jonathan Adler** to craft such a clever creation in the form of his Capri teardrop table lamp in orange (\$250) with its polished-nickel accents and glossy parchment shade. This lamp is truly a reflection of the three essential C's: chic, color-rich, and cheap—words that define our libidinous lives. Actually, our lives are more “cheap” and “chic” than “color-rich,” but no one needs to know the sordid details of our wayward ways, *n'est-ce pas?* Available at *Stil*, 170 Newbury Street, 617-859-7845; jonathanadler.com.

FRIEND OF DOROTHY

Sadly, we were born long after the demise of our most favorite interior designer ever, the legendary Miss Dorothy Draper. However, we invoke her name as often as possible in the hopes that her gorgeous glamour will rub off on our various interior design projects and mundane daily life. Run, we say, to purchase DD's decadent, Chinese-inspired console and curio in white lacquer with orange backing (\$12,040) from **Kindel Furniture**, and watch the world fall into place. Available through *Cabot House*, 220 Worcester Road, Framingham, 508-872-5900; kindelfurniture.com.

happiest color.”*

BURST OF COLOR

Every dining room should boast a brilliant buffet, the perfect piece from which to serve delightful fare at dinner parties and bloody Mary-fueled brunches. Add some zing to your fling with **Shine Every Day's** sun-kissed Milan buffet (\$2,490) in lacquer orange—with its delicious details and sublime storage, it's perfect for stashing booze and casserole dishes. Available at *Hudson Boston*, 312 Shawmut Avenue, 617-292-0900; shineeveryday.com.
